

Areor Series

Transparent Display Cabinet

Carrier

Product Features

- ☒ Perfect product visibility: thanks to the transparent superstructure – for an unobstructed view of the products
- ☒ Flexible assembly: optimized floor space usage, whether designed as a single, row or block layout
- ☒ Low life-cycle costs: thanks to a sliding condensing unit improving maintenance & serviceability
- ☒ Built-in evaporative water box with heating tube, no need to pour water manually
- ☒ Energy Efficiency Class: "Super" Class 1, with energy saving condenser fan
- ☒ Improved controller position: located in the lower part, which is easier to check and display
- ☒ High efficiency refrigerant R404A
